Washington, D.C. 20554

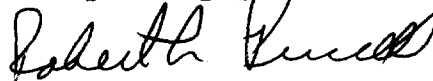

Dear Ms. Searcy,

I am the proponent for a new FM channel in Pocomoke City, Maryland, RM8191, MM Docket Number 93-83.

The original engineering exhibit filed with the Commission dated February 3, 1993 is unchanged and still proposes Channel 223A to Pocomoke City, Maryland and at the reference point shown therein. The references site is the former site used by AM station WDMV. WDMV is no longer on the air. I presently own the land, building and tower formerly used by WDMV and if the channel is assigned to Pocomoke City I intend to make application for a construction permit and use the former facilities of WDMV.

Should further information be required in connection with this matter, please communicate with me at the above address.

Very truly yours,

Robert L. Purcell
